

"Nature study seeks above all things to develop the earliest rudiments of the scientific discover." L. C. Miall

This book contains a collection of short essays on numerous nature and natural history subjects. While they were collected together as suitable starting points for nature lessons for school children by Louis Compton Miall, Professor of Biology at the Univerity of Leeds in 1905, these essays are fascinating listening today for nature enthusiasts of all ages. - Summary by J. M. Smalheer

Read by J. M. Smallheer. Total running time: 9:59:59
